

Competition for the Best Scientific Publication in Algeria

Terms of Participation

1- Context

Within the framework of the Cooperation Agreement between SONATRACH and the CNRST which coincides with the celebration of SONATRACH's 60th anniversary, the competition for the Best Scientific Publication in Algeria" has been launched in order to promote Scientific Research in Algeria by highlighting the outstanding contributions to academic knowledge.

2 About the competition

The competition for the Best Scientific Publication Ranked A+ is an initiative aiming to promote and recognize excellence in scientific research.

2- Criteria of Eligibility and Selection

Criteria of eligibility are:

- Period of publication:
will be taken into consideration, the publications as from 2018;
- Field of research:

Publications must be related to one of the three following fields of research:

- ✓ **Energy Security;**
- ✓ **Food Security;**
- ✓ **Health Security;**

- Author's Domiciliation: The author of the Publication must be affiliated with an establishment legally domiciled in Algeria.
- International collaboration:
If the publication results from an international collaboration, the authors must indicate their affiliations (joint team) and clearly specify the main author and the co-authors and indicate their nationalities.

The selection criteria will be founded on:

- The notoriety of the journal in which the article is published and its impact factor;
- The number of quotations of the article and/or the author;
- The relevance of the themes addressed and its timeliness;
- Role and status of the candidate among the authors (main author, correspondent author);
